

freex

corretora de câmbio

Freedom to explore new paths

Who we are

Based on a robust, detailed business plan, Freex had their application approved by the Brazil's Central Bank in 2024, allowing the company to operate in the foreign exchange market.

Before that, Freex started its activities through the forex correspondent Moneyex, intermediating operations between clients and financial institutions. The company was conceived from the evolution of the business, where the partners identified an opportunity in the foreign exchange market.

Westbull Financial LLC, the senior partner, is a North American fund with prominent operations in several areas, starting in the real estate sector.

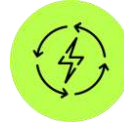

After diversifying its shareholding, Westbull began investing in the Brazilian financial market through BSP Holding - the company that gave rise to Freex and which will be the starting point for future investments.

How we create value

CUSTOMER SERVICE

We meet your needs with agility and efficiency. Either through one of our digital channels or directly with a consultant.

EFFICIENCY AND SIMPLICITY

We develop intelligent approaches, aiming time and money saving, while we also simplify the complexity of foreign exchange transactions.

SECURITY

Our operations are safe, transparent and fully compliant with the Central Bank regulations.

TECHNOLOGY AND INNOVATION

Technological infrastructure designed for the best experience and adaptation to regulatory demands.

Foreign exchange

commercial and financial operations

In an increasingly globalized world, foreign exchange operations are part of the daily lives of companies operating in the international market. Having a partner who understands the subject is crucial for your exchange operations to be carried out in an agile and safe way.

Freex has professionals with extensive experience in commercial and financial exchange operations, ready to offer a personalized solution for your operation.

Use Freex for your international payments and enjoy the

best value for money in the market.

Freex Services

You have a travel plan and need to get the currency of your destination? You've come to the right place!

At Freex, you'll find an incredible variety of foreign currencies to suit your needs no matter where you're going.

And there's more!

We also offer a **prepaid travel card**, which provides greater convenience and security during your journey.

With Freex, your trip becomes more practical and peaceful, allowing you to enjoy every moment without worries.

EF-X Electronic Foreign Exchange

e-FX, or Electronic Foreign Exchange, is a strategic exchange modality for businesses that demand agility and practicality for mass payments and that also facilitates a number of international financial operations in a digital way, such as: procurement of goods and services, unilateral current transfers, transfer of money between accounts and withdrawals in Brazil or abroad and with values limited to USD 10,000 (or its equivalent in another foreign currency) per transaction.

At Freex you will find the perfect combination of **know-how and technological framework** for automated and mass payments.

Freex  Services

Instant transfers

Instant transfers are those carried out with immediate settlement, where **there is no need for the recipient to have a current account**. The delivery of resources to their destination takes place through the presentation of documents or passwords.

It seems perfect for you to keep a loved one abroad, isn't it? Or even send a small amount to a person during your trip.
